

PRODUCT DATA SHEET

PRI SILCRETE

Epoxy resin based medium viscosity system for civil applications

Applications

- Terrace and bathroom waterproofing
- Primer and screed in epoxy flooring
- Repairs in railway infrastructure
- Core cut
- Anti rust coating

Features - Benefits

- Low shrinkage and good adhesion
- Water resistant
- Chemical resistant

Mixing ratio by weight (R:H)	Pot life at 25°C 100 gm mass (Min)	Bond Strength (kg/cm ²) at 25°C after 24 hrs.
100:50	65 - 85	Min 70

Coverage DFT (sq. ft. | microns)

Will vary based on surface, temperature and time since mixing

Mix Viscosity (mPas) at 25°C

2000 - 2500

Drying time (min) at 35°C

Surface dry	Touch dry	Hard dry
120-130	225 - 235	345 - 355

SHELF LIFE

24 Month

PACKING

1.5 kg & 7.5 kg

MFG & MARKETED BY PRIBOND CEMENT PRODUCTS
